Category

- 1) Forest Stewardship Program with completed management plan and practices _____
- 2) Licensed Deer Farmer _____ License # _____
- 3) Deer Depredation Complainant with LDWF approval _____
- 4) Landowners or lessees with 40 acres or more of forested or marsh land _____

- I certify that the above information is correct and complete and that I have authorization from all landowners of the above described property to conduct and control all deer hunting activity on this land. The boundaries of this property must be posted with LADT or DMAP signs at 1000 foot intervals and at each point-of-entry. Tags will not be issued until property is in compliance with regulations.

-I understand that by enrolling in this program I agree to allow LDWF personnel access to this property for management surveys, investigations of violations, and other inspections deemed appropriate by the Department. I understand that I must provide documentation of harvested deer during the season to LDWF personnel upon request and that I have 48 hours to provide this information.

-I agree that the numbered antlerless deer tag will be affixed by the hunter to the hock of all antlerless deer taken during the entire deer season as provided by the terms of this agreement. I understand that each hunter must have the LADT tag in his possession while hunting on this property for which the tag was issued and immediately upon kill of an antlerless deer, the hunter must tag the animal through the hock, before the animal is transported from the site of kill. The tag will remain with the deer while the hunter is in route to his domicile. I understand that when the number of antlerless deer for which tags were issued have been killed, no more antlerless deer can be harvested from this property even if there are either-sex days later in the season for this Area of the state.

-I also agree to keep records of harvested deer as directed by LDWF and to submit such records to LDWF by March 1. I understand that failure to comply with the terms of this program as set forth in Title 76:119, which I have read and understand, may result in suspension or cancellation from the program along with a possible fine to the cooperator or hunter in violation of any program rule.
